

A website for connecting Japanese SMEs with
outstanding Monozukuri(Manufacturing) technologies with overseas businesses.

J-GoodTech

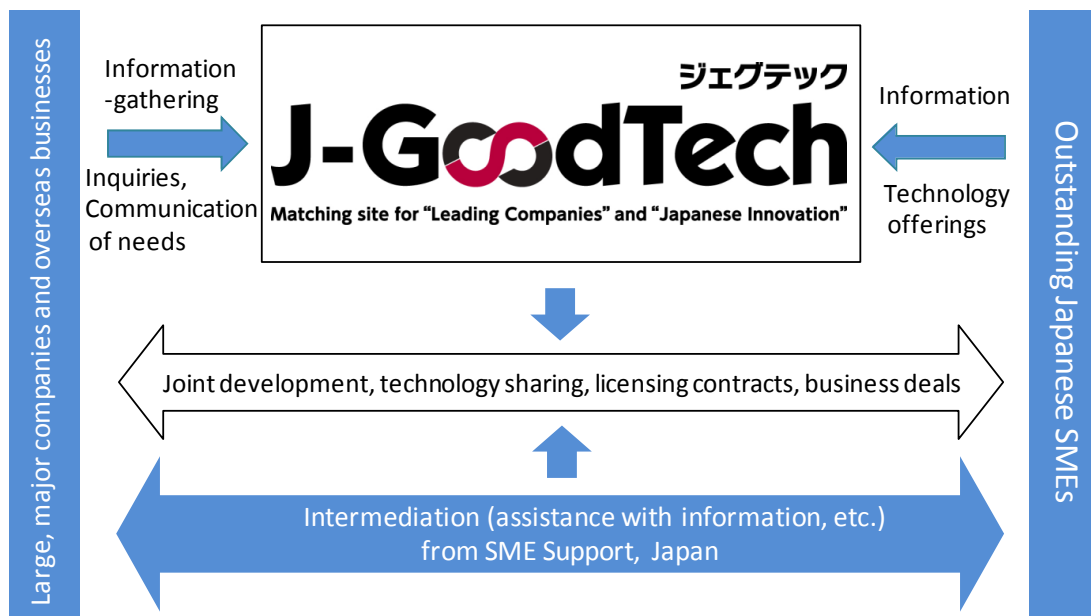

J-GoodTech is a new website that showcases great numbers of outstanding Japanese Monozukuri craftsmanship SMEs, including “top niche” companies that are highly competitive in respective fields, as well as “unique” companies with technologies inimitable by competitors. These companies are carefully selected to be on the J-GoodTech website for businesses from around the world. J-GoodTech is operated by the Organization for Small & Medium Enterprises and Regional Innovation, JAPAN (SME Support, Japan), government organization.

What is J-GoodTech for

1. Select and present SMEs with outstanding Monozukuri (manufacturing) technologies and products on its site.
2. Provide information to the world and facilitate matching between Japanese SMEs and overseas businesses.
3. Connect Japanese SMEs with Open Innovation worldwide.
